

ENERGY SOLUTIONS - CANADA

OIL & GAS PRODUCTION WITH CARBON CAPTURE, SASK., CANADA

- Capturing emissions & converting toclean natural gas = revenue stream #1
- 40% of producing field with NPV increase to \$8.3 M CAD from \$4.4 M CAD over 8 months
- Enhanced oil recovery with waterflood an water injection wells throughout production field
- Professional production team on site daily
- Over 30 well-managed wells, all contributing to long-term energy solutions = revenue stream #2
- Strong ESG implemented on each project

OIL AND MINERAL OPPORTUNITIES - CAMBODIA

OIL TARGET ONSHORE

Prove 25+ million barrels in foreland basin

- 3700 km² onshore license, all parks and protected areas removed.
- Drill first well within 12 months, creating Cambodia's first onshore production
- Early reconnaissance work onshore has identified numerous oil seeps at surface that tested positive for surface hydrocarbons of thermogenic origin.
- Identified six basins on Block VIII
- 350-line kilometer 2-D seismic approved to proceed May-June 2025.

MINERALS TARGET

Advance gold and copper prospects with Drilling to Feasibility and Production Permits

- Three advanced gold and copper licenses in Cambodia, drill targets identified, partners on all covering costs.
- Several strong copper porphyry systems, one of which had copper from surface to 524 meters on initial hole, 3%, only stopped due to capacity of the drill, Andong Bor, fully funded with 20% free carry for ANK.
- OYN license sits 320 meters north of identified mine site, which is open at depth, north, and south.
